Our  
Results/Progress

# 01 What walking means to our group

- “Walking is a way to meet new people while exercising your mind and body.”
- “Walking is a way to get out of the dorm and get some fresh air.”
- “Walking is not only an individual experience but it can also become a shared activity where one can get to know others while sharing a healthy activity.”

# 02 Who?

We made this group for our fellow students

# 03 Why?

Why we made this group was a little different for each member here's what some of them said:

- Sometimes you just need a break, and walking is a good break from homework and other life stuff
- To promote walking and viewing our campus. As well as giving people the chance to walk and take advantage of all the benefits of walking
- To give fellow students the chance to socialize while doing something healthy
